

**Schäfer + Peters GmbH**  
Competence in Stainless Steel

**FEATURES:**

- 90° countersunk head
- Drill bit
- Milled ribs under the head
- Stripping ribs
- TX driving feature
- Special smooth coating

ETA - 11/0283

SP-DRILL, CSK HEAD TIMBER SCREWS  
WITH DRILL BIT AND STRIPPING RIBS  
ITEM 9246 1.4006 TX

# ITEM 9246 1.4006 TX SP-DRILL, CSK HEAD TIMBER SCREWS WITH DRILL BIT AND STRIPPING RIBS

## APPLICATIONS:

Ideal for all companies involved in wood processing (carpenters, timber construction) and all horticulturists and landscapers for fastening timbers and landing stages. Also the ideal solution for hardwoods such as Bangkirai, Massaranduba, and many more.

A minimum screw-in depth of 4 x the diameter must be ensured. A screw-in depth of 8 x the diameter should be achieved depending on the wood.

## FEATURES:

- 90° countersunk head
- Drill bit
- Milled ribs under the head
- Stripping ribs
- TX driving feature
- Martensitic hardened stainless steel (1.4006)
- Special smooth coating

## PRODUCT BENEFITS:

Stripping ribs  
The stripping ribs ensure low screw-in torques even with high attachment parts.

## No predrilling

Predrilling is not needed in most cases. We do, however, recommend always testing the application.

## Wobble-free drive

The TX driving feature allows the screw to be driven easily and securely from setting to countersinking.
